

KCCT DISAGGREGATION FORM
SPRING 2004
KENTUCKY PERFORMANCE REPORT
HIGH SCHOOL

Page 1 – Cover page

Read and summarize the paragraph that is third from the bottom of the page on the left side.

Page 2 – Introduction

Which students are exempt from taking the KCCT?

- 1.
- 2.
- 3.

Page 3 - Accountability Cycle

What is the school's accountability goal for 2006? _____

Did the school meet its accountability goal in 2005? _____

Did the school meet novice reduction and dropout criteria 2005? _____

What is the baseline for the school ? _____

What is the standard error for the school? _____

What is the school's goal for the next biennium (2008)? _____

Page 4 – Accountability Trend

Did any academic areas show steady growth over six years? _____ If yes, which areas?

Did any academic areas decline or show inconsistent performance? _____ If yes, which areas?

Did any of the non-academic data show movement in either a positive or negative direction? _____ Explain.

Does the NRT data show change? _____ Explain.

Page 5 – Disaggregation Index Trends – Academic Index

Compare annual trend data for each subgroup. Which subgroups show increases in the academic index?

Are there any subgroups that show decline? If so, which ones?

Page 6 – Content Area Index Trends

Compare scores in each category. Write in the corresponding box + (gain) or – (loss) and the number of points. If the gain or loss is 3 or more points, circle the answers in red.

Year	Academic Index	Reading	Math	Science	Soc. St.	Writing	A&H	PL/VS
From 1999 to 2000								
From 2000 to 2001								
From 2001 to 2002								
From 2002 to 2003								
From 2003 to 2004								
From 2004-2005								

Are there any content areas that declined over the five years, were flat, or showed uneven performance?

Page 7 – Academic Index Comparisons

Write the index for each. If the school's index is greater than the district and/or state, circle the school's score in red.

Academic Index	School	District	State

Reading	School	District	State
---------	--------	----------	-------

Math	School	District	State
Science	School	District	State
Social Studies	School	District	State
Writing	School	District	State
A & H	School	District	State
PL/VS	School	District	State

Page 8 – Reading Trend Data

(Reading 15% of KCCT) – Compare scores in each category. Write in the corresponding box + (gain) or – (loss) and the number of points. If the gain or loss is 3 or more points, circle the answers in red. *Failure to reduce novices and/or total novices should be marked in red. Any losses in Proficient and Distinguished should be circled in red.

Year	N-non	N-M	N-H	A-L	A-M	A-H	P	D
From 1999 to 2000								
From 2000 to 2001								
From 2001 to 2002								
From 2002 to 2003								
From 2003 to 2004								
From 2004-2005								

Page 9 - Reading Sub-domains

Compare school mean to state mean. Write a + or – and circle in red if the difference is less than the state mean by .3 or more points.

Literary (30%)	Informational (30%)	Persuasive (20%)	Practical/Workplace (20%)

Page 10 – Reading Core Content

*Compute the combined total % for B, 0, and 1. Is it greater or less than the % for 2 category? Place the total in the corresponding box. **(Circle the answer in red if it is greater than the 2 category.)** Place the % of 2s in the 2 column.

#Compute the combined total % for the 3 and 4. Place the total of 3 and 4 in the corresponding box **(Circle the answer in red if is less than the total of the B,0,1, and 2 categories.)**

^Check for comparison with state mean ; if our mean is above the state place a (+) in the appropriate box, if our mean is lower, place a (-). **(Circle any (-) in red.)**

For multiple choice, record % for correct and incorrect. **(Circle in red any % less than 50 in the correct column.)**

Reading (Open Response)	* B+0+1 totals	% of 2s	# 3 +4 totals	^ School/state mean
Literary				
Informational				
Persuasive				
Practical/Workplace				
Reading (Multiple Choice)	Correct	Incorrect		
Literary				
Informational				
Persuasive				
Practical/Workplace				

Page 11 – Reading Questionnaire Data

Questionnaire data – write the % in corresponding box (No. 39 – if the % totaled for 1-2 hrs, 3-4 hrs, and more than 4 hrs. does not total 70 % or more, circle No. 39 in red) (All other questions – if the % totaled for once, 2-3 times, 4-5 times does not total 80% or more, circle the question no. red.

No.	No time	Less 1 hr.	1-2 hrs	3-4 hrs	4 hrs or more	Invalid
39						
	Never	Some	Once	2-3	4-5	Invalid

47						
48						

Page 12– Reading Disaggregation – Performance Level Percents

Is there a specific subgroup(s) showing lower performance?

Page 13 – Disaggregation Index Trends – Reading

Compare annual trend data for each subgroup. Which subgroups show increases in the reading index?

Are there any subgroups that show decline? If so, which ones?

Page 14 – Reading Mean Scale Score/Standard Deviation

Which subgroup(s) has a mean that is close to the proficient cut score line?

Pages 15-16 – Reading Scale Score Data Disaggregation

Find any significant differences (asterisk* denotes significant difference) found in the school's subgroups. *Differences are computed by subtracting scale scores (such as Female = 550 and Male = 523, when subtracted the answer is 27*, which is a significant difference)*

Are there any subgroups at the school level where no significant differences exist?
Exclude information that is blank because there are fewer than 10 students in that group.

From 2003 to 2004					
From 2004-2005					

Page 73 – NRT Data Disaggregation

Which subgroup(s) in each content area is performing in the lower percentage range?
Explain any patterns.

TRANSLATION ACTIVITY

1. Given the results of the KCCT disaggregation analysis, I believe that our three most pressing concerns are.....

2. Our next step should be to.....

3. At my grade level (content team/department), the most immediate concern is.....

4. In addressing **KCCT disaggregation needs findings**, our biggest hurdle will be....

5. The most important thing that I learned today was.....

REFLECTION ACTIVITY

1. KCCT disaggregation issues that have an impact on my classroom include.....

2. If I address these issues, the changes in my students' performances will include.....

3. To be successful, I will need.....

4. You will be able to tell that I have been successful by checking.....

5. Other issues I intend to address include.....
